## EXPERIENCE

### Web Developer

*PlayForever*

Oct 2023 – Present

Toronto, ON

- Managing front-end and back-end development for company websites, regularly updating and adding features.
- Led the development of a custom web project for the company's clothing brand, boosting user engagement and revenue.
- Supervising a team, driving web projects from start to finish, and delivering user-centric websites aligned with company goals.

### Full-stack Developer Intern

*Prepr*

July.2023 – Sep 2023

Toronto, ON

- Collaborated in an Agile Scrum team to establish a digital marketing agency using Jira, focusing on project management, brainstorming, and prototyping.
- Conducted client pitch presentations to demonstrate the agency's services and strategies.
- Independently built a full-stack web project with HTML, CSS, JavaScript, PHP, MongoDB, and MySQL, showcasing versatile front-end and back-end development skills.

### Tech Consultant

*Kelly connect*

Feb. 2022 – Jan 2023

Toronto, ON

- Provided expert tech consulting services to diverse clients, offering solutions tailored to their unique needs.
- Advised on cybersecurity measures, ensuring clients' data integrity and protection against potential threats.
- Resolved complex technical challenges, offering timely troubleshooting and effective problem-solving

## PROJECTS

### Innovate Trent

Sep 2023 – Present

- I serve as an administrator for Innovate Trent, an official Trent University club. We manage the club's website, which serves as a hub for students interested in technology, innovation, and entrepreneurship.
- Our website hosts over 150 members on Discord, offering updates and information about our weekly "Tech Talks" streamed on Discord. We also organize coding and study sessions for real-world projects and tech discussions.
- Joining our Discord server gives members access to insider news and upcoming events. We're enthusiastic about engaging with students online and in-person, fostering a witty and inclusive club culture.

### Travel Guide

July 2023– Aug 2023

- Developed a comprehensive travel guide website to assist customers in finding the best travel package deals, utilizing HTML, CSS, and JavaScript for front-end development, ensuring an engaging and user-friendly interface.
- Implemented a secure login system using PHP, and effectively managed data with MongoDB and MySQL, enhancing user experience and data integrity on the platform.
- Successfully combined technical expertise in multiple programming languages to create a versatile and functional travel guide website, demonstrating proficiency in both front-end and back-end development.
